

Media KIT 2023

www.clevr.money

We started as a cooperative initiative from Blackpool Council 15 years ago. Today we are expanding to cover further areas around Lancashire.

A credit union is a community built entity where we put hands together to help each other walk away from high interest lenders and stabilise individuals finances to create a sustainable base for their daily life.

Our operational costs are covered by the interest collected on loans, that is why they are low, any excess is paid back to members each fiscal year as dividend based on the year's performance.

- No setup costs
- No late payment fees
- No early repayment penalties
- Affordability Assured
- Low interest guaranteed
- Online banking
